Hi Aaron,

I spoke with my boss and we discussed the site and conditions of your <1 ac. proposed landscape rock mining from the dumped fill from basements. We agree that a lower bond amount is appropriate, and that \$3,000 is conservative but the appropriate amount bond amount to require. Here's a rough conservative estimate for what would be our 3rd party cost to reclaim:

Mob/Demob: \$1,000

Equipment Work: \$1,200 (assuming 8 hrs work with trackhoe at \$150/hr - conservative)

Seed, Seeding, Travel, etc: <\$800

Total: \$3,000

You can send a cashier's check written to the Utah State Treasury for \$3,000 if you want faster approval (assuming everything else is ready to go), or a personal or company check works, but needs to clear the bank before we can issue the permit.

Peter
